Dock & Door Maintenance & Service Program

A Cost Effective Way to Increase
Productivity, Maximize Uptime,
and Reduce Unnecessary Repairs

www.liftincorporated.com

Your Material Handling Experts

Our Planned Maintenance Program Will Help Ensure Your Docks & Business Stay Up & Moving

What We Support

Our skilled technicians support all manufacturers and Dock & Door equipment types:

- ✓ Doors & Panels
- ✓ Restraints
- ✓ Levelers
- ✓ Dock Seals, Brushes, & Bumpers
- ✓ Canopy's/Shelters
- ✓ Safety Guides & Tracks
- ✓ Gates & Barriers
- ✓ Dock Lights & Fans

Planned Maintenance Program

Our Planned Maintenance (PM) Program and highly-skilled factory trained technicians will help ensure your Dock & Door equipment stays safe and functional with minimum operational down-time.

Whats Included:

- ✓ Visual and Safety Inspection
- ✓ Functional and Operational Testing
- ✓ Cleaning and Removal of Debris
- ✓ Equipment Lubrication and Adjustments
- ✓ Technician Report

We also utilize fully equipped mobile fabrication vans for immediate repairs and offer customized scheduling to ensure maximum up-time.

Did You Know We Can Support Most Material Handling Equipment?

Large Industrial fans | Scales
Industrial Shrink Wrap Machines
Conveyors | Freight Elevators | Etc...

Visit www.liftincorporated.com/dockanddoor or call 717-662-1800 to schedule your equipment maintenance assessment today!

Thermal Imaging Inspections

We can help you identify and measure costly Dock & Door inefficiencies and propose cost effective solutions.

Safety & OSHA Compliance

Our team of experts can help you stay OSHA compliant and avoid incidents that could impact operations and production.

Cost Analysis Reporting

We provide flexible reporting to highlight potential cost reductions and savings for a better return on investment.

Pre-Stocked Part Availability

Don't wait on parts for repairs. We can work with you to stock the parts you will likely need, including universal flexible door panels.
